

What We Do?

Complete Bran Collection Duct Solutions

A professionally designed duct system helps collect bran efficiently while maintaining clean airflow throughout the rice milling plant.

We provide complete duct manufacturing, fabrication, installation, fitting, structural support fabrication, replacement, repair, and bran collection system integration.

Rice Milling Experts

Engineering Solutions for Modern Rice Milling Projects

About Us

*We are establish
since 2008*

Rice Milling Experts provides complete bran collection duct solutions, including manufacturing, fabrication, fitting, installation, replacement, repair, and complete system integration.

Our duct systems are designed for maximum efficiency, proper airflow, and long-term reliability.

Complete Project Support

From duct manufacturing and fabrication to installation and final commissioning, we provide complete project execution under one roof.

Why Choose Us?

A properly designed duct system improves bran collection, reduces dust, and supports efficient rice mill operation.

Key Strengths

- Custom Duct Fabrication
- Professional Installation
- Strong Structural Supports
- Complete Airflow Integration

"A well-designed duct system ensures cleaner operations, efficient bran collection, and reliable plant performance."
